

5.30.17

Dear Board of Directors,

I was on the Honor Flight May 22, 2017. My, what an experience.

From the time we got there on Sunday, to the final walk at the end of our flight, we were so very impressed. What a well "oiled" machine. It's amazing that during that entire time, I never saw a single "hicup".

My wife and I feel that it would really be an honor to volunteer our services to your great organization. Please let us know how we can contribute.

Thanks again very much for a never forgotten 2 days.
