PO Box 5056

Dear Mike

Usage of your full name is out of respect, not to be taken as a joke, as I am fully aware you would prefer "Mike". This letter just had to be written as soon as possible, demanding perhaps, before the events that happened are forgotten.

The letter, then, is to say "Thanks to you, and your organization for the unforgettable experience". Our trip to Washington DC was a fantastic occurrence, the planning, programs, transportation and housing, and of course the lack of a fee for the event are a tribute to you, and your organization. Your letter, delivered on the plane home, the "crowds", oh the crowds, so receptive and congratulatory left me speechless, especially the children at the WWII memorial, and again at arriving home to Kauaui, I was stunned, specifically at seeing some of my own family in attendance. As I told many of them, "I am appreciative, but undeserving". Many veterans did as much or more than I. WWII Servicemen just say "we had a job to do, and did it".

Your letter is priceless to me

Enough said

Kenie
