

Honor Flight Organizers and Committee Members and Guardians

There were so many wonderful people who contributed to your wonderful tribute to WWII veterans. For me and all the others who could make it and those who for one reason or other who never had the opportunity we so much appreciate all the work, all the contributions to our safety, well being, honor, enjoyment, every detail (you didn't miss a beat). God bless you all.

I have written a personal thank to all whose addresses I had not misplaced. A special thanks to one Andy Jarvis whose address I lost. If possible pass on to him my gratitude for his personal support. I will certainly treasure all my memories.

Enclosed is a small contribution to your continuing endeavors.

Charles Kemper

I've written a personal letter to all who greeted me at mail call and who left a return address. Unfortunately a few may have been overlooked or lost. I want to thank everyone on your staff. If only there had been time to meet all the veterans and discharge experiences.
