

Dear Never Forgotten Honor Flight board,

We count ourselves greatly privileged to have been chosen as guardians for the Honor Flight of 4 October 2010. As a son and a daughter of WWII veterans who are no longer with us, and as a veteran and spouse ourselves, we were honored to spend the day in the company of a vanishing breed of American, the Greatest Generation, that really understands the cost of freedom. You set up a wonderful experience, from banquet to homecoming, and each element of the experience built on the one before it. We began as admirers of our WWII veterans and ended as friends. We count ourselves blessed to have shared their company and heard their stories, and we have greatly enjoyed our contacts with them since the trip ended.

We've been privileged to share the message of Honor Flight in numerous contexts, and we are excited to see the growing public support of the program. May God bless you as you continue to lead this noble effort.

Sincerely,

Ken and Tina Moberg, Wausau
