I'm one of those vets who made the honor flight on Oct 4 just want to thank all of you in the "head shed" of this program for a great experience that WWII memorial is really something. But the best part of the whole flight was the greeting at the DC airport and the homecoming at Central. Wis.

The mail call was over-whelming I'm writing a few thank you letters to a few students in D.C. Everest Senior and Jr. H. Schuele who gave me their addresses. If you know of teachers who are promoting these in those schools would you thank them and encourage them to continue. Thanks Again for a great experience
