

From: Bob Schultz

I was fortunate enough to be chosen for this flight this past Monday and would like to thank your organization for making it possible. Everything was absolutely 1st class from start to finish. Each of us was made to feel as though we won the war all by ourselves!

Touring the military sites was inspiring beyond words. I have to say, though, that the most awesome part of the trip was the reception when we landed at CWA airport at the end of the trip. The crowd of people greeting us, the military organization veterans in uniform and, of course, our relatives and friends. It was mind blowing and I haven't gotten over it yet. Receiving the letters aboard the return flight was terrific, too.

As a Korean War veteran, I was especially taken by the Korean War memorial which was absolutely surreal and ghostly.

Thank you for this trip! It truly will never be forgotten!
