Dear Pat:

I wanted to get this letter off to you before now, but being gone on the Honor Flight on Monday, April 23rd and then getting back home to my very busy schedule, then we were away for awhile and also had company--needless to say, at my age, I was a little tired out.

I am writing this to let you know what a super job you and your Committee are doing in honoring the World War II veteran's and it is deeply appreciated. There wasn't a thing that wasn't taken care of. It was very well organized and everyone knew what their duties were and did an excellent job.

This something I will always remember, it brought back a lot of memories. Without a doubt, it was a most exciting and emotional time.

My wife and I are very grateful for all the work and dedication you and your Committee put into these Honor Flights, the honor given to all of us who fought for the freedom of our country. Again, many thanks.

Enclosed is a donation to this very worthwhile cause of \$100.

Sincerely,

Vi & George Kveck
