NEVER FORGOTTEN HONOR FLIGHT
4404 RIB MOUNTAIN DRIVE #234
WAUSAU WI 54401

Dear Honor Flight Board of Directors;

Hi, my father, Don Moravec, was one of the Korean War veterans on your flight # 19 on April 27, 2015, I was his guardian. Although he was afflicted with short term memory loss due to a stroke many years earlier, with the help of some photos taken on the trip he would respectfully recall the many wonderful people he met on the flight and the memorials we saw on that "trip of a life time" (dad's words). I would like to thank the entire Honor Flight organization for that flight and those memories and for allowing me the opportunity to ride along.

Dad passed away on June 13, 2017. We miss him dearly and would like to honor his memory by sponsoring a guardian for one of your upcoming flights. My wife, Chris, and I, along with two coworkers from Church Mutual, Leah Henkelman and Tricia Heller, would like another son or daughter or a friend of a veteran to have the opportunity to make this trip with "their veteran". If the person you select experiences a small portion of what dad and I did, they will be truly blessed.

Please accept the enclosed check and pass it on anonymously to a guardian in need, so that they can experience what I did with my father on your flight # 19.

We thank you very much for all that you do for our veterans. Please keep up the excellent work that you do to honor those who gave so much to this country.

In memory of:

Donald F Moravec
PFC
US Air Force

Respectfully submitted;

Mark Moravec and Christine Moravec

Mark and Chris Moravec
W4593 PINE AVE
MERRILL, WI 54452

PS – enclosed pic of dad at the FDR memorial from 4-27-15. This stop was not on our schedule, the Korean War memorial was, however we were delayed in visiting it since the Japanese ambassador and their security detail had temporarily closed the site – I recall a couple of WW II veterans on our bus that had some "colorful" comments about the cause of the delay. Later on, we did get back to see the memorial, which triggered some additional "colorful" comments...
