Hi Jim,

It means so much to hear the kind words from you. While I was able to take in some of the experience while on the trip, I was busy working, getting footage, interviews, etc. as well - but what a trip it was! I think it's really hitting me how important the trip is for veterans after sifting through the interviews, the veterans' stories, the footage of them, and the memorials. Getting time to reflect on what I saw is very deep. It was a long, exhausting day, but it was so worth it. They call it a trip of a lifetime for our heroes, but it was also a trip of a lifetime for myself.

Thanks again for including me in an experience I will never forget - and be sure to keep an eye out for more coverage tonight!

-Kevin
