Dear Sirs;

I want to thank you for the great trip that you provided for the Vets in April. I was honored to be on that flight and it was one of the best days of my life. Everything was planned out and nothing could have happened that your team was not prepared for. The things we saw and the gifts we got, the way we were treated, and how great the people were that were involved; were always first class.

I cannot thank your crew enough for this opportunity . I am enclosing a check that the Never Forgotten Honor Flight can use in making the next Honor Flight as great as ours. Every Vet should have the chance to finally get appreciated and honored.

Regards,
