From: Al & Barb Brace

We still look at each other and say "I Can't believe that Barbara is gone"

We know that she suffered daily with many issues that would have worn down the average person many years ago, but she soldiered on so that she could help others. Her penchant for lending a helping hand or providing words of encouragement to someone with problems was inspiring to say the least.

Barbara loved her contributions to the Never Forgotten Honor Flight organization and all of the vets that she interacted with. Therefore, we want to contribute to the NFFH in Barb's memory and to honor her name.
