To Honor Flight Board of Directors and Staff,

I want to express my gratitude and thanks for the trip of a lifetime I experienced last week. What we did and what I saw was above and beyond all of my expectations. The program provided us veterans was unimaginable. I will never forget it. From the fantastic reception and program on Sunday, the landing in DC until the return trip home really made me feel proud that I served my country as I did. I would do it all over again.

Thank you so much,
God bless America,

Garry Grzesiak
