

Hello! I'm currently en route back home to Dallas from my guardianship duty from Mission #38! Thank you to everyone who makes this trip so special for the veterans. While he didn't open it his mail call package when he received it last night on the flight, I wanted to share a video with you of a special card my father, Lawrence Slowiak, received. His younger brother, who served in the Army, battled pancreatic cancer for quite some time and passed away three weeks ago. Prior to his passing, my Aunt helped my Uncle put down his thoughts in a card for my Dad. While he was unable to write it himself, he was able to sign his name. Thank you from the bottom of my heart, for the good work you do. I firmly believe that if not for this opportunity for my Dad to go on the Honor Fight, he would not have received something of such importance to him. Attached is the video and a picture of my uncle, Terry Slowiak. God bless you, the entire organization and countless community members who make this possible. I look forward to volunteering in Dallas, Texas!

David Mattingly
