to me

Hi Jim Thank you so much for everything not only you, but everyone associated with this organization!!! It is the most well oiled group I have ever been associated with. Briefly: I had some "issues with mental health". The Tuesday before I left for DC I saw Mike Clements the Portage county VSO. Telling him of my problems Mike asked if I wanted help....I said YES! That word lifted a weight off my shoulders. I will be getting the help necessary for sure! Going to DC reaffirmed just how many people really do care about our fellow brothers and sisters. My problems were not totally associated with Viet Nam, just a combination of things.

I have a neighbor who is my age. Dennis is a army vet who was in Germany during 69-71. He told me he feels that vets who served in war zones are better served than he with the honor flight. That is gonna change as I will have him over early next week to show him many photos and news of Never Forgotten Honor Flight. The application is prepared for him and hopefully for his son Robbie.

Speaking of photos, I was caught in three photos when returning to Mosinee. Will the mass of photos (1500) taken be available any time soon and where at?

THANK YOU SO MUCH....John Feltz PS; Bob Worden is a mutual ham radio friend....he said to say HI
