to me

I had the pleasure of being a non-family guardian on the September Honor Flight. I have been involved for many years in organizing events in our community and I want to commend you and everyone involved in the Never Forgotten Honor flight group. Everything went so smoothly and you provided an amazing experience for the veterans and their families. I was so impressed with your organization, every detail was thought through about the comfort of the veterans and making sure their experience was meaningful.

Everything, from the timing of the buses and air flights, the food, the tour guides on the buses, the medical staff, the volunteers to make sure we all knew where to go, the reception at the end with so many veterans groups, the hospitality of the Ghidorzi family at the hotel, the program and the effort put into making sure all the veterans had some mail at Mail Call. The icing on the cake was the booklet at the end with the veteran service photo and their current photo plus the group photo. WOW.

Thank you for letting me participate and help a veteran experience this.

Sue Koehl
