

Board Member,

Thank you for a day to remember,

Time with fellow veterans, family and thoughts buried deep. Leading up to this trip my younger brother shared more stories than the previous 50 years. Your recognition of wives left my sister-in-law in tears. I broke down when Gerald greeted me outside the Motel, at the airport in D.C., at the Wall, at our return in Moinee and at our kitchen table talking with family and friends about what the experience was for me.

It was a day of healing and for that I can't say enough about your organization and the volunteers you've recruited. Gratitude is the biggest casualty of my service and I thank-you all for giving it back to me.

Mark Clark
