

Thank You
So Much

With Sincere Gratitude,
Sara Hayes

Dear Board of Directors of the "Never
Forgotten Honor Flight,"

I was the assigned guardian
for my father Carl Floerke, on Mission
#49 of the Never Forgotten Honor Flight.
I am writing to thank each of you for
what you contributed to make this
trip a reality for so many veterans.

I am so very proud of my Dad
for his service to our country and am
well aware that it came at a great cost.
Years of his life were not his own and
scars remained long after he returned.
Through this trip you successfully
helped him understand that there are
people in this country who appreciated
his service and that it mattered.

Your attention to every little detail did not go unnoticed. I was amazed at the care you took to make sure each veteran had an amazing experience. You truly had considered everything and made them feel so very special and honored. It was clear to me that individually you have given so much of your time and talents which are both invaluable gifts. I was encouraged by how you all worked together selflessly for the sole good of others.

Thank You! I am so very grateful and appreciate all that you gave selflessly. Know that you are making a huge difference in many lives through this program.

Sincerely, (from a devoted
daughter)

Sara B. F. Hayes
