to me, James

Your welcome. For all the years I have been a funeral director and owner of my funeral home, my veterans families have always told me that this was their best day and now I can totally believe it. I will treasure last monday for the rest of my life. I have a connection with all my honor guard members from the state that have been on a funeral with me and it was a total honor to meet an honor guard from Arlington National Cemetery. That was another highlight.

This trip was so emotional and so well deserved of all the veterans. I truly cant thank you all enough.

Thank you so much!!!

Thank you for the pictures Jim!! Can you tell me who the Honor Guards name was that talked with us??

Thank you to Never Forgotten Honor Flight #51. I have to thank everyone in this organization for being given this opportunity to travel to Washington D.C. on April 14, 2025 to honor them for their service and sacrifice. I participated with 1 Korean War Veteran and 99 Vietnam Era Veterans: 1 female and 99 male veterans. This trip was a chance of a lifetime for me and everything was done with perfection and gratitude. Being on the waitlist for 9 years was worth the wait. I honestly can't thank you enough. We were welcomed by many students, parents, teachers, and other veterans along the way during our trip and it was very emotional and uplifting to our veterans. Listening to their stories and experiences during this trip will be something I will never forget. I will hold it dear to my heart and cherish these memories

forever. It was honestly a trip of a lifetime. Thank you to all the veterans for putting their life on hold to serve our country - you will never be forgotten. Thank you also for the most beautiful welcoming to our veterans back home at the airport - It was memorable.

Jon Tillung
